Resolute™ Strength Selectorized Line

Converging Shoulder Press

Resolve to make your selectorized strength equipment purchase with confidence—choose the Resolute™ Strength line from Precor. It delivers on what matters most: your investment will withstand the test of time.

The Resolute Strength Converging Shoulder Press emphasizes proper biomechanics with an ergonomic, converging axis and independent pressing arm movement. The dual-position handles add to exercisers' comfort and workout variety. The low-profile tower of the Shoulder Press lends an open, spacious feel, even in smaller facilities.

Resolute™ Strength Selectorized Line

Converging Shoulder Press

Biomechanically Sound

The Resolute Converging Shoulder Press correctly positions the exerciser to ensure proper joint stabilization during lifting. Independent moving arms, converging movement, as well as horizontal and neutral hand positions provide options for a personalized fit and exercise variety.

Designed to Go the Distance

The over-sized steel tubing of the Converging Shoulder Press contributes to a more durable product as well as a timeless, contemporary silhouette. One piece, soft rubber foot caps make the equipment easier to move and will remain in place even if kicked.

Focused on the Experience

The open design and overhead pivot make entry and exit fast and easy. The counter-balanced movement arms create a proper motion path and low starting lift weight. Our patented add-on weight switch is within a convenient reach.

Advanced Training with Sony® Advagym

Strength training has gone digital. Add the Sony Advagym training and tracking system, along with the app, to give your exercisers a whole new way to train. Through the Advagym app, personal trainers can prescribe workouts and monitor their clients' progress.
